Dear Sirs,

**Mineral Prospecting License Application OMA1/22**

I support the proposal of the Department for the Economy to grant this prospecting licence to Flintridge Resources Limited.

Since 1985 various companies have made a huge commitment to developing the Cavanacaw Mine and to mineral exploration in the wider area. I believe that the technical experts of Flintridge Resources are highly competent, and well-supported. The company's outline programme of work for the next two years looks appropriate.

The exploration will add to the fund of knowledge on the area's mineral resources, and may lead to further development. It will provide employment for local people, increase their skills and help the economy.

In addition, granting the licence will demonstrate that Northern Ireland welcomes investment in its mineral resources and in rural areas.

Yours faithfully,
